# MoMA

### Meet me at the MoMA

#### Weekly Art Program at Granville Gardens

Join us for our MoMA lectures to learn about these fascinating artists.

#### Yves Gaucher

Yves Gaucher (1934–2000) was one of Canada's foremost abstract painters of the second half of the twentieth century. He first made his mark as an innovative printmaker, winning international prizes for his work. After turning to painting in 1964 and for the rest of his life, he pursued his abstract style with relentless self-criticism and uncommon purity.

#### Purdence Heward

Prudence Heward was a Canadian painter principally known for her figure painting with "brilliant acid colours, sculptural treatment, and an intense brooding quality". She was a member of the Beaver Hall Group and a co-founder of the Canadian Group of Painters and the Contemporary Arts Society.

### Cinco De Mayo

Join us on Wednesday May 5th as we celebrate Cinco De Mayo. Dress in Red, Green & White in honour of Mexican culture. There will be a social at 2:30pm with Margaritas, Music & Festive Food. Please Sign-up at Reception ahead of time. See you

### BOOK CLUB MEETING

*THURSDAY MAY 27TH AT 3:00PM*

Anyone who is interested in joining the Granville Gardens book club please sign-up at reception. This month we are reading "Little Fires Everywhere" - #1 on the New York Times Fiction Best Seller list. If you would like to read this with us Kaylie will provide you with a copy of the book.

| David R.   | May 16th |
| Mimi H.    | May 23rd |
| Anne H.    | May 29th |
| Raymond Y. | May 29th |

### Living Loving Local Asparagus Month

Asparagus is like the tulip of spring flowers – from the first true winter thaw, the warm sun and moist soil sprouts the asparagus spear. It is one of the first green edibles to be commercially harvested in our northern climate. For centuries, asparagus was considered a luxury and praised for its distinctive flavour by such famous figures as Julius Caesar, Louis XIV, and Thomas Jefferson. Despite this, no one is quite sure where it originated, although some believe it derived from a wild plant that grew thousands of years ago in sandy soil native to the eastern Mediterranean and Asia Minor areas.
